RELM's Next-Generation P25 Digital Portable Radio Receives Equipment Authorization from the Federal Communications Commission

WEST MELBOURNE, FL, December 4, 2007 – RELM Wireless Corporation (AMEX: RWC) announced today that its newest P25 digital portable radio, the BK Radio KNG P150, has received equipment authorization from the Federal Communications Commission (FCC) for use in the United States. The KNG P150 provides interoperability under the Project 25 standard (P25) established by the Association of Public-Safety Communications Officials - International (APCO).

“The arrival of the KNG P150 is a significant step for RELM and represents the first product in a comprehensive line of next generation P25 portable and mobile radios. Designed to answer users’ calls for smaller, lighter units with class-A performance specifications, the KNG P150 is an important addition to our P25 product line, which we believe enhances our capability to address new opportunities for RELM, including those in Homeland Security and the Department of Defense,” commented RELM President and CEO, David Storey. “We are anxiously anticipating the market launch of this portable radio and plan to follow with additional portable and mobile models in the months ahead.”

About APCO Project 25 (P25)

APCO Project 25 (P25), which requires interoperability among equipment regardless of the manufacturer, was established by the Association of Public-Safety Communications Officials - International and is approved by the U.S. Department of Homeland Security. The shift toward interoperability has gained momentum as a result of significant communications failures during events such as the Oklahoma City bombings, the 9/11 attacks and Hurricane Katrina. RELM was one of the first manufacturers to develop equipment with P25 technology.

About RELM Wireless

For over 60 years, RELM Wireless Corp. has manufactured and marketed high-specification two-way communications equipment for use by public safety professionals and government agencies, as well as radios for use in a wide range of commercial and industrial applications, including disaster recovery. Revolutionary advances include new interoperable, low-cost digital two-way radios with APCO Project 25 technical specifications. Products are manufactured and distributed worldwide under BK Radio, RELM/BK and RELM product lines. The Company maintains its headquarters in West Melbourne, Florida and can be contacted through its web site at www.relm.com or directly at 1-800-821-2900.

This press release contains certain forward-looking statements that are made pursuant to the “Safe Harbor” provisions of the Private Securities Litigation Reform Act Of 1995. These forward-looking statements concern the company’s operations, economic performance and financial condition and are based largely on the company’s beliefs and expectations. These statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors and risks include, among others, the following: reliance on contract manufacturers; heavy reliance on sales to the U.S. Government; federal, state and local budget deficits and spending limitations; limitations in available radio spectrum for use by land mobile radios; general economic and business conditions; changes in customer preferences; competition; changes in technology; changes in business strategy; the debt and inventory levels of the company; quality of management, business abilities and judgment of the company’s personnel; and the availability, terms and deployment of capital. Certain of these factors and risks, as well as other risks and uncertainties, are stated in more detail in the company’s Annual Report on Form 10-K for the year ended December 31, 2006 and in the company’s subsequent filings with the SEC. These forward-looking statements are made as of the date of this press release, and the company assumes no obligation to update the forward-looking statements or to update the reasons why actual results could differ from those projected in the forward-looking statements.
