## **California Department of Forestry Extends Contract for RELM BK Radio Products**

**WEST MELBOURNE, FL, May 24, 2007** – RELM Wireless Corporation (Amex: RWC), a leading manufacturer of high-specification two-way communications equipment for use in the government, public safety and private sectors, today announced that the California Department of Forestry (CDF) has extended its contract with Silverado Avionics, an authorized RELM BK Radio dealer, for purchases of RELM BK Radio products through June 30, 2008. The CDF's original contract with Silverado had an estimated value of \$5.4 million with a three-year term expiring on June 30, 2007. Under the contract, Silverado provides BK Radio-brand portable two-way transceivers to the California Department of Forestry (CDF) for deployment in forests throughout the state. This contract is also open to all state agencies other than the Department of Forestry and may be utilized to purchase either P25 digital or analog products. Neither the contract nor the extension specifies purchase dates or quantities of equipment.

RELM President and CEO David Storey commented, "As a long-time supplier to the U.S. Forest Service and the fire fighting community in general, we are very pleased that RELM BK Radio continues to be the product of choice for the CDF's two-way radio communications needs. This contract has been, and continues to be, a highly successful collaboration among the teams of Silverado, the CDF and RELM, and is a textbook example of our bedrock philosophy of listening to customers' requirements and meeting them. In this case, we incorporated specific enhancements and functionality to our portable radio design at CDF's request, effectively customizing the product to their application. This is just one of the ways in which RELM differentiates itself from competitors." Storey concluded, "We are looking forward to the extended relationship with Silverado and the CDF."

### **About RELM Wireless**

For six decades, RELM Wireless Corp. has manufactured and marketed high-specification two-way communications equipment for use by public safety professionals and government agencies, as well as radios for use in a wide range of commercial and industrial applications, including disaster recovery. Revolutionary advances include new interoperable, low-cost digital two-way radios compliant with APCO Project 25 technical specifications. Products are manufactured and distributed worldwide under BK Radio, RELM/BK and RELM product lines. The company maintains its headquarters in West Melbourne, Florida, and can be contacted through its web site at [www.relm.com](http://www.relm.com) or directly at 1-800-821-2900.

*This press release contains certain forward-looking statements that are made pursuant to the "Safe Harbor" provisions of the Private Securities Litigation Reform Act Of 1995. These forward-looking statements concern the Company's operations, economic performance and financial condition and are based largely on the Company's beliefs and expectations. These statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors and risks include, among others, the following: reliance on contract manufacturers; heavy reliance on sales to the U.S. Government; federal, state and local budget deficits and spending limitations; limitations in available radio spectrum for use by land mobile radios; general economic and business conditions; changes in customer preferences; competition; changes in technology; changes in business strategy; the debt and inventory levels of the Company; quality of management, business abilities and judgment of the Company's personnel; and the availability, terms and deployment of capital. Certain of these factors and risks, as well as other risks and uncertainties, are stated in more detail in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 and in the Company's subsequent filings with the SEC. These forward-looking statements are made as of the date of this press release, and the Company assumes no obligation to update the forward-looking statements or to update the reasons why actual results could differ from those projected in the forward-looking statements.*
