**RELM WIRELESS KNG-SERIES PORTABLE RADIOS  
DESIGNATED “HOT PRODUCT” BY  
PUBLIC SAFETY COMMUNICATIONS MAGAZINE**

**WEST MELBOURNE, FL, December 16, 2008** – RELM Wireless Corporation (AMEX: RWC) today announced that it’s new line of P-25 digital portable radios, the KNG-Series, has been chosen by Public Safety Communications magazine as a “2008 Hot Product”. The KNG line encompasses products that operate in all the major frequency bands utilized by public safety professionals, including VHF, UHF and 700MHz-800MHz. The magazine article, entitled *Good Idea in a small Package*, highlights some of the leading features and specifications of KNG-Series products, such as an unsurpassed duty-cycle of over 18 hours and six watts of programmable RF output. Additional capabilities include NIST (National Institute of Standards and Technology) validated FIPS (Federal Information processing Standard) 140-2 encryption, the IP67 submersible rating, and many others.

RELM President and Chief Executive Officer, David Storey commented, “We are excited about our KNG portable radios being recognized as a hot product by the official publication of APCO (Association of Public Safety Communications Officials); an independent and affirmative review of our industry-leading capabilities and quality. The KNG portable radios, and our soon-to-follow KNG family of compact yet powerful mobile radios, we believe, provide an excellent platform for profitable growth.”

**About RELM Wireless Corporation**

For more than 60 years, RELM Wireless Corporation has manufactured and marketed high-specification two-way communications equipment for use by public safety professionals and government agencies, as well as radios for use in a wide range of commercial and industrial applications, including disaster recovery. Advances include new interoperable, low-cost digital two-way radios compliant with APCO Project 25 technical specifications. Products are manufactured and distributed under BK Radio, RELM/BK and RELM product lines. The Company maintains its headquarters in West Melbourne, Florida and can be contacted through its web site at [www.relm.com](http://www.relm.com) or directly at 1-800-821-2900.

*This press release contains certain forward-looking statements that are made pursuant to the “Safe Harbor” provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements concern the Company’s operations, economic performance and financial condition and are based largely on the Company’s beliefs and expectations. These statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors and risks include, among others, the following: reliance on contract manufacturers; heavy reliance on sales to the U.S. Government;; federal, state and local budget deficits and spending limitations; limitations in available radio spectrum for use by land mobile radios; general economic and business conditions; changes in customer preferences; competition; changes in technology; changes in business strategy; the debt and inventory levels of the Company; quality of management, business abilities and judgment of the Company’s personnel; and the availability, terms and deployment of capital. Certain of these factors and risks, as well as other risks and uncertainties, are stated in more detail in the Company’s Annual Report on Form 10-K for the year ended December 31, 2007 and in the Company’s subsequent filings with the SEC. These forward-looking statements are made as of the date of this press release, and the Company assumes no obligation to update the forward-looking statements or to update the reasons why actual results could differ from those projected in the forward-looking statements.*
